Data Ingestion

Stakeholder Workshop: *Data Management in Offshore Licensing Procedures*

February 29, 2024

Welcome!

*Please mute your
microphone*

*Put your questions in the
chat or raise your hand*

Objectives and Background

- **EMODnet Ingestion Activities**
 - Identification of Stakeholders for Offshore Licensing Data
 - Inventory of Current Offshore Licensing Data Practices
 - Database on Availability of Licensing Data per Country
- **Objectives for Today**
 - **Presentation and Discussion of Current Practices:** Findings on current practices in different Member States will be presented and discussed.
 - **Exploration of Harmonization Feasibility:** Initiate a discussion and brainstorming to assess whether a harmonized approach is desirable and feasible, both between and within Member States.
 - **Initiate the Development of a Roadmap:** The workshop aims to lay the groundwork for a roadmap towards a more harmonized approach to data acquisition and management within license procedures.

Agenda

- Introduction by Zoi Konstantinou (European Commission, DG MARE)
- Overview of EMODnet and activities of EMODnet Ingestion by Dick Schaap (EMODnet Ingestion Coordinator)
- Current Practices in Offshore Renewable Energy and Aquaculture Licensing
 - Italy
 - Malta
 - Estonia
 - France
 - United Kingdom
 - Bulgaria
- Exploration of Roadmap and Next Steps
- Closing Remarks

Current Practices in Offshore Renewable Energy and Aquaculture Licensing

- **National Cases**

- Italy
- Malta
- Estonia
- France
- United Kingdom
- Bulgaria

- **JamBoard**

- What key insights did you gain from each case?
- General comments?
- Link: <https://jamboard.google.com/d/1Vbv5NgPaeCFEtvCtX-3MshbqXx-RZqAit40uHPpyXyw/viewer?f=0>
